2.4.1 At World and Continental Masters Championships for men, their first attempt snatch plus the first attempt clean and jerk must total no less than a total that is 15 kilos below the Qualifying Total for that age and bodyweight category. The lowest possible opening (first) attempts total for men is 15 kilos below their Qualifying Total.

2.4.2 At World and Continental Masters Championships for women, their first attempt snatch plus the first attempt clean and jerk must total no less than a total that is 10 kilos below the Qualifying Total for that age and bodyweight category. The lowest possible opening (first) attempts total for women is 10 kilos below their Qualifying Total.

2.4.3 Failure to achieve the qualifying standard will result in the athlete not receiving a medal regardless of that athlete’s position in the championship.

2.5 Masters Bodyweight Change Rule

2.5.1 At the Technical Meeting before the start of IWF Masters World or Continental Masters Championships, each National Federation confirms the final entry list of their athletes including name of the athlete, age group, and bodyweight category.

2.5.2 At the Technical Meeting athletes may move up to a higher body weight category or down to a lower body weight category. Note – Rules 2.4.1 and 2.4.2 ensure that an athlete can achieve the qualifying standard.

2.5.3 Any athlete can move up to a higher body weight category at the time of the weigh in. In order to do this the athlete must first attend the weigh in for the body weight category he or she has entered and then also attend the weigh in for the next body weight category above.

2.5.4 After information is verified at the Technical Meeting, the entries are considered final. There cannot be any modification of the names or bodyweight categories of the athletes, except in the case of an athlete moving up into a higher bodyweight category.

2.5.5 When, for any reason, a delegation of a National Federation does not attend this Technical Meeting, the entry forms previously submitted by that National Federation are considered the Final Verified Entries for that country.

2.6 THE SINCLAIR-MALONE-MELTZER FORMULA

2.6.1 The Sinclair-Malone-Meltzer Formula (SMM) is used at IWF World Masters and Continental Masters championships to compute the best lifter in each age
group and best overall lifter in the championship for men and for women. The formula uses the Sinclair Body Weight Coefficients (which change every 4 years) and the Malone-Meltzer Age Coefficients which remain static. Only first place winners are eligible for an Age Group Best Lifter Award and the Overall Best Lifter in the championship is selected from the Age Group winners by virtue of having the highest number of SMM points.

3 IWF MASTERS NATIONAL TEAM COMPETITION

3.1 At IWF Masters and Continental Masters championships each country may enter a team into the Men’s Team Competition and/or the Women’s Team Competition. The men’s team consists of eight (8) athletes and women’s team seven (7) athletes plus 3 reserves.
   A team may have less than the stipulated number.
   Team selection is spread over the different age and body weight categories with a maximum of two (2) athletes in any age and body weight category.
   This competition is for team points only and team points are as in the IWF Rules.

3.2 Team selection is from the official entry list.
   In the team competition (men’s and women’s teams) if there is only one lifter in an age group and that lifter is selected for a team, the maximum points he can earn is 23 (equivalent to 3rd place). If there are two (2) people in the age group and both were selected in teams, the winner would earn 25 points and the second would earn 23 points (equivalent to 2nd and 3rd places).
   Team entries should be submitted at the Technical Meeting and will not be accepted after the start of the competition.

3.3 Small Nations Team Competition for Men.
   This competition is limited to nations with six or fewer championship entries from Men. A nation can select six (6) or fewer athletes for their team. All other rules are the same as in 3.1 and 3.2 above.

3.4 Team points for each athlete are calculated on the athlete’s total and final position in the competition within the athlete’s age group and body weight category.

3.5 The points of each team member are added together to give the total points for the team. The team with highest number of total points is the winning team.
   If two (2) or more teams have equal points then the SMM points earned by each team member are added together to give a total SMM points for the team. The winning team is then selected on the highest team total of SMM points.
   If two (2) or more teams have equal totals of SMM points the winning team will be selected on basis of medals won, i.e. most gold, silver, bronze.

3.7. MEDALS

3.7.1. Medals are awarded to the first three places in each weight and age category for
3.7.2. In the event of a tie on totals the lifter with the lightest body weight is the winner.

3.7.3. In the event of a tie on totals and where the two lifters have the same body weights, the lifter with the earliest date of birth, i.e. the oldest, is the winner.

3.7.4. In the event of a tie on totals where the two lifters have the same body weight and the same date of birth, the lifter who reached the total first is the winner.

3.8. BEST LIFTER AWARDS

3.8.1. Best lifter awards may be given for each age category, men and women.

3.8.2. All best lifter awards are based on the highest number of SMM Points.

3.8.3. If a lifter has the highest number of SMM Points in an age group but was not the winner in his or her body weight and age category then the lifter cannot be awarded the best lifter, i.e. only a person who is first then their age and body weight category can be declared the best lifter in that age group.

3.8.4. “Grand Master” Awards for men and women may be awarded to the best overall man and woman having achieved the highest overall SMM Points in a championship.

2.3 The committee will preside over and make decisions on all Adverse Analytical Findings (AAF) received from tests conducted by a laboratory and make decisions based on the results from the laboratory and other relevant information, e.g doping control documents; and in accordance with WADA rules and any instructions that may relate specifically to the Masters.

2.4 If any AAF results in a test being declared positive the committee will make decisions on disciplinary procedures as specified in Section 1 above, and will notify the athlete concerned of the decision and the rights of the athlete.

2.5 The committee will meet once a year at IWF Masters Championships and will be in contact by telephone, letter, and email, at other times necessary to make decisions or discuss matters relating to anti doping.

2.6 The committee reports back to the IWF Masters Executive Board.
3 PROCEDURES OF THE IWF MASTERS ANTI DOPING COMMITTEE

3.1 The IWF Masters (and Continental) will only use WADA approved laboratories for testing.

3.2 The IWF and Continental Masters will liaise with Championship Organising Committees to ensure that the NADO (National Anti Doping Organisation) of the country where the championship is taking place will cooperate to enable anti doping to be conducted and using the NADO DCO’s (Doping Control Officers).

3.3 It will be necessary to liaise with the Organising Committee and for the Organising Committee to obtain an “all in” cost to conduct one (1) test. This cost will include

- Sampling kits
- Doping control forms.
- Laboratory test and related paper work.
- Transporting the samples to the laboratory.
- Any expenses incurred by the DCO’s. This might include travel, food, and accommodation

3.4 The total cost for dope testing will be met by the IWF Masters and Continental Masters Committees from the revenue received from their share of the championship entry fees.

3.5 Before each championship, and immediately after the closing date for entries, the committee will obtain the total number of entries to enable a budget to be prepared to meet the cost of anti doping.

The number of tests to be carried out at any championship will depend upon the budget.

3.6 All entry forms contain a statement whereby the athlete agrees to the IWF Masters rules on anti doping, this includes selection of any athlete. All entry forms include a TUE (Therapeutic Use Exemption) form which is WADA approved and should only be completed by athletes using medication prescribed by a medical doctor. National Masters Chairmen have a duty to make the TUE form known to all the competing Masters of their country. The form must be produced at the time of being tested.

3.7 Before each championship the committee will devise a suitable formula to be able to randomly select athletes (male and female) for testing and produce a list. From this list it will be known which position (from first to last) will be tested, within a body weight category, within an age group, and within a session. Until the session of weightlifting ends the name of the athlete selected is not known.
3.8  The committee will select a member of the IWF Masters Executive Board (or another suitable Masters official) to control the list described in 3.8 above and take the athlete selected to Doping Control.

4.  IWF Masters Rules on Anti Doping  
(Resulting from a laboratory adverse analytical finding)

4.1.  It is the duty of all individuals to ensure that whatever product they ingest, inject, or inhale, does not contain a substance that is on the WADA list of banned substances or is not named on the list itself.

4.2.  Where a prescribed medicine is involved the individual must obtain a TUE signed by their doctor and supported by a medical certificate signed by the same doctor. Both of these documents must be kept by the person named in them and need only to be produced and shown to the Doping Control Officer if selected for doping control at a World or Continental Masters Weightlifting Championship. **In this circumstance, failure to produce both documents will result in a disqualification and a suspension.**

4.3.  **Except where rule 4.2. is expressly observed and followed, all other adverse analytical findings will be deemed to be a “positive test” and will result in disqualification (from the championship where the test took place) and a suspension.**

4.4.  When the IWF Masters Anti Doping Committee have made a decision on an adverse analytical finding the following procedures will occur.

4.4.1.  The Committee will write and mail a letter to the person named in the adverse finding. The letter will give the result of the adverse finding and the penalty imposed on the athlete, it will also ask for an explanation from the athlete within a specific time scale.

4.5.  In addition to imposing disqualification and a suspension for an adverse analytical finding the IWF Masters Anti Doping Committee will also request the immediate return of the medal.

4.6.  Failure to return the medal within 30 days after a final decision to suspend an athlete will result in an additional 6 months suspension. If the medal is not returned within the first 6 months of a suspension a life ban will be imposed.

4.7.  No athlete will be allowed to return to a future Masters Championship if they fail to observe rules 4.5. and 4.6. above. **Effectively this will result in a life ban.**
4.8. The medal must be returned by a mailing from the athlete directly to the named Chairman of the IWF Masters Anti Doping Committee.

4.9. Any competitor found in a venue with a hypodermic syringe will be immediately ejected from the building and subject to the findings of the IWF Masters Anti Doping Committee.

4.10. Any competitor found “tampering” with their blood or body in any way whatsoever will treated the same as in rule 4.9. above.

4.11. All suspension periods will be at the discretion of the IWF Masters Anti Doping Committee.

4.12. Please understand that the IWF Masters takes anti doping very seriously and will continue to do everything in its power to create a fair level of competition for everyone. This can only happen when all the drug cheats are finally eliminated.

ENTRIES TO MASTERS CHAMPIONSHIPS

1 THE ENTRY FORM

1.1 All National Masters Chairmen must distribute the entry form to all athletes wishing to take part in a championship. All athletes must complete and sign the event entry form and all entry forms must be submitted by the National Masters Chairperson of each country.

1.2 The entry form carries all the necessary information.
   - Contact details of the Championship Manager ((Organizer).
   - Date of competition and competition venue.
   - Closing date for submission of entry forms.
   - Athlete’s agreement to comply with anti doping regulations.
   - Athlete’s personal details and contact details.
   - Entry fee and price of Closing Banquet ticket.
   - Organising Committee bank details to enable payment by electronic bank transfer of total fees. It is feasible that the IWF Masters will develop and introduce a method of online payments at a future date.
     **Note: Unless specifically instructed, no other methods of payment are acceptable.**
   - Qualifying totals.
   - Masters TUE form (approved by WADA at the 2009 WMG, Sydney, Australia).

1.2 Entry forms will not be accepted from individual athletes, except for
circumstances occurring under rule 1.5. below. All National Masters Chairpersons must ensure that athletes complete and sign the entry form correctly, and all entries must be posted to the address listed on the entry form. Entry forms by email or any other method are unacceptable.

Note - Where an individual athlete has reasons to believe that the National Masters Chairperson is refusing his/her entry form because there are personal differences, the athlete can contact the IWF Masters (or Continental Masters) and ask for intervention quoting rule 1.6. below.

If the IWF Masters (and Continental Masters) find intervention to be necessary the athlete may be allowed to submit an entry form and compete.

1.4 Entry fees must be paid according to the instructions on the entry form, currently payment is by electronic bank transfer. No other method is acceptable. National Masters Chairpersons must pay the relevant entry fee for all entry forms submitted. The method of payment is by electronic bank transfer, in the currency of the host country, and all fees payable by the sender. The entry form will show the necessary bank details of the Organising Committee.

All entry fees must be paid according to the number of entry forms submitted, e.g. if a nation submits 10 entry forms then 10 entry fees must be paid. Failure to do so may result in athletes not being allowed to compete.

1.5 Some small nations may have no Masters Committee or National Masters Chairperson. In such circumstances the Masters of such small nations may appoint an individual to submit entry forms. The IWF Masters (or Continental Masters) committee should be informed of such circumstances.

1.6. Small nations must submit the “summary sheet” showing the list of all competitors, and this must be completed for one or more competitors. This form is mandatory and must accompany the entry form(s).
